## NOTES FOR THE TEACHER:

Students select a word, find the price for each letter and add up the total.

For example:

$$\text{KATZE} = 2,50 + 1,10 + 5,50 + 2,25 + 4,65 = 16,00\text{€}$$

Students will be practising maths as well as their spellings. They will see how prices are written in German, including the use of commas instead of decimal points.
