NOTES FOR THE TEACHER:

Students select a word, find the price for each letter and add up the total.

For example:

$$\text{GATTO} = 5,00 + 1,10 + 5,50 + 5,50 + 3,35 = 20,45\text{€}$$

Students will be practising maths as well as their spellings. They will see how prices are written in Italian, including the use of commas instead of decimal points.
