

NOTES FOR PARENTS AND TEACHERS

I hope your children are enjoying spending some of their time refreshing Spanish as well as learning something new.

In order for the language to "stick", I recommend that children watch each video several times, on different days. They will also enjoy playing the games on different days as well.

There are additional activities to accompany each video. These have been designed specifically for the Learn Spanish at Home scheme, and so your child won't already have done this activity at school. They will, however, already be familiar with some of the songs!

When your child watches one of the videos, it is assumed that they will already have the knowledge taught in the previous videos. Therefore they might experience difficulties if they go straight for a more "difficult" video.

video number	topic	2019 onwards	2018-2019 and previously
1	saying hello and saying how you feel	Year 1	Year 1
2	saying your name and asking someone else their name	Year 1	Year 1
